

Portable Foot Operated Air Pump

This portable foot air pump is designed for inflating tires and other inflatable items. It features a durable construction with a steel frame and a built-in pressure gauge for accurate inflation.

Product Overview

Compact and Reliable Inflation

This portable foot-operated air pump is engineered for versatility and ease of use, making it an essential tool for maintaining optimal pressure in tires and inflatable gear. Featuring a durable steel frame construction, it offers stability during operation while maintaining a compact, foldable design for effortless storage and transport. With an integrated pressure gauge and multiple nozzle adapters, this pump ensures accurate and compatible inflation for a wide range of applications, from bicycles and motorcycles to cars and sports equipment.

Technical Specifications

Maximum Pressure

100 PSI

Max Pressure

Compatible Applications

- Bicycles
- Motorcycles
- Cars
- Sports equipment

Design & Features

Construction	Durable steel frame
Portability	Foldable design, Compact, Portable
Included Accessories	Multiple nozzle adapters
Pressure Gauge	Yes
