

Portable Fruit and Vegetable Juicer

This portable juicer is designed for extracting juice from fruits and vegetables on the go. It features a durable transparent container with a 300ml capacity, a leak-proof lid, and a carrying strap for easy transport.

Product Overview

Compact Portable Juicing Solution

This portable fruit and vegetable juicer is designed for health-conscious users who need a convenient way to prepare fresh juice on the go. Featuring a durable, food-grade PCTG construction and a leak-proof design with a carrying strap, it is ideal for travel, office, or gym use. The appliance utilizes an off-center turbulent design to ensure thorough mixing, powered by a quick-charging magnetic USB system.
