

# Portable Gas-Powered Room Heater

This portable gas-powered room heater is designed for efficient and safe room heating. It features a durable gray upper section with ventilation slots and a brushed metal lower section.

## Overview

### High-Efficiency Portable Heating

This portable gas-powered room heater combines robust heating performance with a sophisticated design, featuring an elegant inox front. Engineered for reliability, it includes advanced safety features such as ODS (Oxygen Depletion Sensor) and flame failure protection, making it suitable for indoor environments. With an adjustable thermostat and piezo ignition, it provides convenient and consistent warmth for various professional and residential spaces.

## Technical Specifications

### Heat Output

**4.2 kW**

Heating Power

Max Gas Consumption	330 g/h
Ignition System	Piezo ignition
Thermostat	Yes

## Safety Features

Safety Systems	Flame Sensor, Fire Out Protection, ODS (Oxygen Depletion Sensor)
----------------	--

## Accessories & Compatibility

### Regulator Compatibility

Pressure	Region
50 mbar	DE, AT, CH, HR
30 mbar	CZ, ET, SLO
37 mbar	BE, NL, PL

Gas Hose Length	0.4 m
