

Portable Gasoline Generator

This gasoline generator is impact resistant and provides reliable operation with low noise. It is an ideal movable power source for outdoor working, lighting, and various applications.

Overview

Versatile Portable Power

This portable gasoline generator is designed as a flexible and reliable power source for a wide range of applications. It excels in environments requiring mobility, such as outdoor work sites, emergency lighting, and remote operations. Its durable construction ensures dependable performance, while the compact design allows for easy transportation and storage.

Key Features

Suitable Applications

- Outdoor working sites
- Emergency lighting
- Field operations
- Remote power backup

Key Benefits

Low Noise, Portable, Reliable Operation, Compact Design

Technical Specifications

Customization

Variable Voltage • Variable Frequency

Model

SH950(DC)
