

Portable Gasoline Generator

This portable gasoline generator is designed for providing electrical power in remote locations or during power outages. Features include a compact design, recoil start, AC and DC outputs, and safety features such as circuit breakers.

Product Overview

Reliable Portable Power

This portable gasoline generator is engineered to provide dependable electrical power in remote locations or during emergency power outages. Its compact design ensures ease of transport, making it an ideal solution for powering small appliances, essential tools, and electronic devices. Equipped with both AC and DC outputs, it offers versatile connectivity for various equipment needs.

Technical Performance

Frequency

50 Hz

Frequency

AC Voltage

230 V

AC Voltage

Excitation System

Self-Excitation

Features & Safety

Key Features

- Recoil start mechanism
- Automatic Voltage Regulator (AVR)
- Integrated Voltmeter
- Circuit breakers for AC and DC

Safety & Compliance

Circuit Breaker Protection, Insulation Class Compliant
