

Portable Gasoline Generator

This portable gasoline generator is engineered for efficient power generation. It is equipped with a durable frame, a control panel offering multiple outlets, and an integrated fuel tank.

Overview

Portable Gasoline Generator

This portable gasoline generator is designed for reliable power generation in various environments. Featuring a durable frame and an integrated control panel, it is an ideal solution for backup power requirements or off-grid applications. With a robust output capacity, it ensures consistent performance for essential electrical needs.

Performance Metrics

Maximum Output

3.5 kW

Max Output
