

# Portable Gasoline Generator

This portable gasoline generator provides a reliable power source for various applications. It is equipped with a gasoline engine, AC/DC outputs, a circuit breaker, and a digital display.

## Overview

### Reliable Portable Power Solutions

This portable gasoline generator is designed for versatility and reliability in remote locations or during emergency power outages. Featuring a robust engine and a durable frame, it provides both AC and DC power outputs to accommodate various equipment needs. Equipped with integrated wheels, the unit ensures easy transport and maneuverability for professional use.

## Technical Specifications

### Performance Metrics

**220 V**

AC Voltage

**50 Hz**

Frequency

**12 V**

DC Voltage

AC Output

220V / 50Hz

DC Output

12V / 8.3A

Key Features

Portable, Circuit Breaker Protected, Digital Display, Wheeled Frame
