

Portable Gasoline Generator

This portable gasoline generator is designed for providing electrical power in remote locations or during power outages. It features a robust frame for protection and portability, an easy start recoil system, and a reliable engine for consistent performance.

Overview

Reliable Portable Power

The DF1200H is a portable gasoline generator engineered to provide consistent electrical power in remote locations or during unexpected power outages. Designed with a robust protective frame, it offers both durability and ease of transport for demanding environments. It is an ideal solution for powering essential tools, appliances, and lighting equipment on job sites, camping trips, or during emergency situations.

Technical Specifications

Model	DF1200H
Fuel Type	Gasoline

Features & Safety

Output Interfaces

- Standard AC Outlets
- Voltmeter Display

Safety & Monitoring	Voltmeter, Circuit Breaker, Overload Protection
Starting System	Recoil Start
