

Portable Gasoline Generator

This portable generator provides AC power at 230V. It has a 5.5 HP engine featuring electronic ignition and an oil alert system that shuts down the engine when oil levels are low.

Overview

Versatile Portable Power Solution

This portable gasoline generator is designed for reliable power generation in diverse environments. Featuring a robust 4-stroke, single-cylinder engine, it delivers stable output options to meet various professional requirements. The unit includes essential safety features like oil level monitoring and circuit protection to ensure longevity and operational safety during use.

Technical Specifications

Generator Model Comparison

Feature	YL2900DC	YL4000DX
Rated Output	2.0-2.2 kW	2.5-3.0 kW
Engine Model	YL168F-A	YL168F-B
Net Weight	36 kg	44 kg
Dimensions	625x440x500 mm	615x450x465 mm

Voltage Configuration 110V, 115V, 120V, 220V, 230V, 240V

Cooling System Forced air cooled

Safety & Operation

Operational Safety

- Oil alert system
- Circuit protector for AC output
- Non-contact transistorized ignition
- Manual starting mechanism
