

Portable Gasoline Generator

This portable generator is powered by a gasoline engine. It is equipped with a robust frame, integrated wheels, multiple outlets, a voltmeter, and a recoil and battery start system.

Overview

Professional Grade Backup Power

This portable gasoline generator provides reliable power for residential and commercial applications. Engineered with a powerful four-stroke engine and a large fuel capacity, it ensures extended runtimes for critical equipment. Designed for versatility, it supports both recoil and electric starting systems for ease of operation.

Performance

Power Output

5.5 kW

Max Power

5 kW

Rated Power

Electrical Characteristics

Feature	Specification
Rated Frequency	50/60 Hz
Rated Voltage	220/110 V
Phase	Single Phase
Voltage Regulation	Automatic Voltage Regulator (AVR)

Engine

Engine Specifications

- Displacement: 390 mL
- Type: OHV25°, Single Cylinder, 4-Stroke
- Cooling System: Forced Air Cooling
- Starting System: Recoil/Electric Start
- Oil Capacity: 1.1 L
- Fuel Tank Capacity: 25 L

Logistics

Dimensions and Weight

- Dimensions: 690 x 520 x 575 mm
- Net Weight: 80 kg
- Gross Weight: 82 kg
- Container Capacity: 128 sets per 20ft container

Design Features

Portable, OHV Engine, Automatic Voltage Regulation, Dual Start System
