

# Portable Gasoline Generator

This gasoline generator is designed for portable power solutions. It features a robust engine and durable construction suitable for various applications.

## ADDITIONAL IMAGES

## Overview

### Reliable Portable Power Solution

This portable gasoline generator features a modern design with a high-capacity 25L fuel tank for extended run times under full load. Equipped with a 100% copper alternator, it ensures superior temperature management and a longer service life. Its versatile control panel supports multiple configurations including dual voltage and three-phase outputs, making it ideal for job sites, emergency backup, and outdoor events.

Copper Alternator

## Technical Specifications

Alternator Material	100% Copper
Fuel Tank Capacity	25 L

## Control & Interface

### Control Panel Features

- Engine switch
- Hour meter
- 12V DC output
- USB ports
- Wiring terminal
- AC Circuit breakers

### Digital Display

Four-in-one digital display

## Optional Features

### Available Options

CO Alarm, Remote Start, ATS (Automatic Transfer Switch), Square Alternator, Three Phase Output, Dual Voltage

## Physical Design

### Portability Features

Wheel Kit • Durable Frame • Compact Design

## Logistics

### 40HQ Container Load

380 pcs
