Overview

Compact Portable Power Solution

This portable gasoline generator features a brushless, single-phase design suitable for a variety of power needs. Engineered for reliability, it utilizes an air-cooled, two-stroke engine with a recoil starter system. Its compact dimensions and lightweight build make it an ideal choice for camping, emergency backup, or on-site power requirements.

Electrical Specifications

Power Output

0.9 Kw

Max AC Output

0.75 Kw

Rated AC Output

Rated AC Voltage

110V, 120V, 220V, 230V, 240V

Frequency

50/60 Hz

Engine Performance

Engine Details

Feature	Specification
Engine Type	Single cylinder, Air-cooled, Two stroke
Displacement	63 ML
Max Output	2 HP / 3600 rpm
Ignition System	C.D.I

Fuel & Operation

- Fuel Mix: Gasoline & Engine Oil (50:1)
- Fuel Tank Capacity: 4.2 L
- Work Duration: 6.3 h
- Start System: Recoil starter

Physical Characteristics

Dimensions & Weight

18 KG

Net Weight

Operating Noise Level

60 dB(A) at 7m

Dimensions (LxWxH)

370 x 350 x 325 mm

Logistics

Container Loading (20'/40'/40HQ)

720 / 1400 / 1400 pcs
