

Portable Gasoline Generator

This portable gasoline generator provides a reliable AC power source suitable for powering tools and appliances. Featuring a compact design, it is easy to transport and store.

Overview

Reliable Portable Power

This portable gasoline generator serves as a flexible and low-noise power source designed for professional applications. It is engineered for reliable operation in demanding environments, including construction sites, outdoor work, and emergency settings. With customizable voltage and frequency options, it adapts seamlessly to specific operational requirements.

Key Features

Safety & Protection

- Overload protection
- Low oil shutdown system

Suitable Applications

Construction, Emergency Backup, Outdoor Lighting, Communication Systems, Medical Facilities, Field Work

Performance

Performance Highlights

900 W

Rated Power Output

Operational Benefits

Low Noise • Portable • Fuel Efficient • Customizable Voltage
