

Portable Gasoline Generator

This portable gasoline generator is designed for providing electrical power in various applications. It features a robust frame for protection and portability and is equipped with standard outlets and controls for ease of use.

Product Overview

Reliable Portable Power Solution

This portable gasoline generator is engineered for versatility and durability, featuring a robust frame for enhanced protection and easy transport. It utilizes a reliable single-cylinder, 4-stroke OHV engine with air cooling to deliver consistent performance in various environments. Ideal for powering tools, appliances, and essential lighting, it serves as a dependable solution for remote locations or emergency backup power needs.

Technical Specifications

Engine Type	Single cylinder, 4-stroke, OHV 25°, air cooling
Engine Model	KB170F
Power Factor	1

Performance Metrics

Key Performance Metrics

3.2 KW Rated Output	60 Hz Frequency	220 V Rated Voltage
