

Portable Gasoline Generator

This portable gasoline generator is designed to provide reliable power wherever it is needed. It features a robust frame, compact design, voltmeter, AC and DC outputs, and a warning indicator for safe operation.

Product Overview

Reliable Portable Power

This portable gasoline generator is engineered to provide consistent and reliable power for various professional and personal needs. Featuring a compact and durable design with a robust frame, it is easily transported and stored for use at construction sites, campsites, or as an emergency backup. The unit is equipped with integrated safety features and multiple power outputs, ensuring versatile performance in demanding environments.

Technical Specifications

Rated Power

2 kW

Output Capacity

Electrical Configuration

Output Type	Voltage/Frequency
AC Output	220V / 230V
DC Output	12V
Frequency	50Hz

Features

Control Panel Components

- Integrated Voltmeter
- AC Power Output
- DC Power Output
- DC Reset Button
- Operation Warning Indicator

Application

Ideal Use Cases

Construction Sites, Camping, Emergency Backup
