

Portable Gasoline Generator

This portable gasoline generator is designed to supply power for various applications. It features a robust engine, durable frame, and is suitable for construction sites, outdoor events, and emergency power.

Product Overview

Reliable Portable Power

This portable gasoline generator is engineered to provide dependable power across a variety of demanding applications. Designed with a robust engine and a durable protective frame, it ensures consistent performance in environments ranging from active construction sites to outdoor events and emergency backup scenarios. The unit is built for ease of use and maintenance, offering stable power output suitable for sensitive electronic equipment.

Performance Metrics

Rated Power

3600 W

Rated Output

Technical Specifications

AC Output Voltage	Standard AC Output
Fuel Tank Capacity	Standard Capacity
Noise Level	Standard Operational Level

Features & Benefits

Key Features

- Robust engine for reliable performance
- Durable frame for protection and portability
- Easy start mechanism
- Stable power output for sensitive electronics
- Low maintenance design

Applications

Suitable For	Construction Sites, Outdoor Events, Emergency Power
