

Portable Gasoline Generator

This portable gasoline generator is designed for providing electric power in remote locations or during power outages. It features a durable frame, recoil start, and various output receptacles.

Overview

Reliable Portable Power

This portable gasoline generator is engineered to provide dependable electric power in remote locations or during unexpected power outages. Built with a durable frame for rugged use, it features a reliable recoil start system and multiple output receptacles to accommodate various devices. It is an ideal solution for powering small appliances, essential tools, and sensitive electronics when grid power is unavailable.

Technical Specifications

Power Output

1500 W

Rated Output

Starting Method

Recoil Start

Model Number

HD1500

Suitable Applications

Small Appliances, Power Tools, Electronics, Emergency Backup

Design & Construction

Frame Construction

Durable heavy-duty frame
