

Portable Gasoline Generator

This is a compact and lightweight gasoline generator designed for portable power solutions. It features a robust engine, delivering reliable AC power output suitable for various applications such as camping, outdoor events, and emergency backup.

Product Overview

Compact Portable Power Solution

The WG950 is a compact and lightweight gasoline generator designed for reliable portable power solutions. It features a robust 2-stroke engine, delivering consistent AC power output suitable for camping, outdoor events, and emergency backup situations. Equipped with a built-in voltmeter and DC output for battery charging, this unit offers essential utility in a highly portable, durable frame.

Performance Metrics

Rated Output

650 W

Rated Output

800 W

Max Output

Electrical Specifications

Parameter	Value
AC Voltage	220V
DC Voltage	12V
Frequency	50Hz
Power Factor	1.0

Engine and Fuel

Engine Type	2-Stroke
Fuel Tank Capacity	4 L
Continuous Running Time	6.5 H
Starting System	Recoil

Physical Attributes

Weight	16.5 kg
Dimensions	380x320x330mm

Features

Key Features

Portable • Built-in Voltmeter • DC 12V Output • Durable Frame
