Overview

Reliable Portable Power Generation

This portable gasoline generator is engineered for dependable performance in demanding environments. Featuring a high-capacity 25L fuel tank and a robust 460cc engine, it provides extended runtime and consistent power output. Designed with efficiency in mind, the unit incorporates an advanced combustion system and high-quality filtration to ensure reliable operation and reduced maintenance.

Engine & Performance

Engine Features

- Pure copper coil alternator
- Thunder automatic carburetor
- High-quality sponge air filter
- Low vibration and noise design

Engine Displacement	460 cc
---------------------	--------

Fuel Tank Capacity	25 L
--------------------	------

Compliance & Quality

Usage Safety

For optimal performance and safety, ensure that the total power consumption of all connected appliances does not exceed the rated power capacity of the generator.

Certifications	CE, Euro V
