

Portable Gasoline Generator for Power Supply

This is a gasoline generator. It is a portable gasoline generator designed for power supply in various applications, featuring a compact design, easy start system, and multiple outlets for connecting devices.

Overview

Reliable Portable Power

This portable gasoline generator provides a dependable power solution for outdoor activities, construction sites, and emergency backup needs. Engineered with an 80cc 4-stroke engine, it delivers a maximum output of 2000W while maintaining a compact and manageable form factor. Designed for efficiency, it offers up to 6 hours of continuous operation at 50% load, making it a versatile choice for professional and recreational use.

Performance Metrics

Rated Output

1800 W Rated Output	2000 W Max Output
-------------------------------	-----------------------------

Noise Level (50% Load)	65 dB
Continuous Operating Time	6 hours (at 50% load)

Technical Specifications

Engine Details

Feature	Specification
Engine Type	Single cylinder, 4-stroke, air-cooled
Displacement	80cc
Ignition System	CDI

Electrical Output

- Rated Voltage: 220V
- Rated Frequency: 50Hz
- DC Output: 8.3A/12V

Physical Attributes

Fuel Tank Capacity	4 L
Net Weight	18 kgs
Packaging	Color box
