

Portable Gasoline Generator Set

This portable gasoline generator set provides electrical power in remote locations or during power outages. It features a recoil start, AC 220V output, and a compact design suitable for powering small appliances, tools, and lighting equipment.

Overview

Reliable Portable Power

This portable gasoline generator set is engineered to provide dependable electrical power for remote locations or emergency backup during power outages. Its compact design ensures easy transportation and storage, making it a versatile solution for powering small appliances, tools, and lighting equipment. Equipped with essential safety mechanisms like overload protection and low oil shutdown, this unit is built for safe and consistent operation.

Technical Specifications

AC Output Voltage	220V
Engine Power	2 hp
Starting System	Recoil Start

Safety & Features

Certifications	CE
Safety Features	Overload Protection, Low Oil Shutdown

Logistics

20ft Container Capacity	Supported
