

Portable Gasoline Generator Set

This gasoline generator set is a portable power solution suitable for various applications. It features a robust frame for durability and easy transport, along with an engine on/off switch, output indicator, volt meter, circuit breaker, and AC 230V output.

Overview

Reliable Portable Power Solution

This portable gasoline generator set is engineered to provide a dependable power source for both residential and commercial applications. Featuring a robust 4-stroke, air-cooled engine, it delivers consistent performance with a rated output of 2kW. Designed for convenience and durability, the unit includes both recoil and electric start options, making it a versatile choice for various operational needs.

Engine Specifications

Rated Power Output

5.5 HP

Horsepower

4.1 kW

Power Output

Engine Model	OY168
Engine Type	Air-cooled 4-stroke 1-Cylinder OHV
Displacement	163 cc

Generator Performance

Power Output Metrics

Metric	Value
Rated AC Output (kW)	2
Max AC Output (kW)	2.3

Supported Voltages	110V, 120V, 220V, 230V, 240V
Operating Noise Level	67 dB

Operational Features

Starting System

- Recoil Start
- Electric Start

Fuel Tank Capacity	15 L
Continuous Operation Time	13 H

Physical Dimensions

Dimensions (L×W×H)	610×445×445 mm
Dry Weight	37 kg

Compliance

Certifications

CE
