

Portable Gasoline Generator Set

This gasoline generator set provides portable power for various applications. It features a protective frame, easy controls, and an automatic voltage regulator (AVR) for stable power.

Overview

Portable Power Solution

The SDQF2.5 is a gasoline-powered generating set engineered for reliable, portable power in diverse environments. Built with a robust protective frame, it ensures durability during transport and on-site use. Integrated with an Automatic Voltage Regulator (AVR), this unit delivers stable electricity suitable for various professional and field applications.

Technical Specifications

Model Number	SDQF2.5
Power Source	Gasoline

Features

Voltage Regulation AVR Equipped	
Key Features	Portable Design, Robust Frame, AVR Technology, Voltmeter Included
