

Portable Gasoline Generator Set

This gasoline-powered generator set is designed for portable power solutions. It features a robust frame, AC outlets, a circuit breaker, and instrumentation for safe and efficient operation.

Overview

Portable Power Solution

This portable gasoline generator set is engineered for reliable power generation in on-site or emergency scenarios. Featuring a robust, protective frame design, it balances portability with high-performance output. The unit is equipped with a brushless single-phase generator and an air-cooled 4-stroke engine, ensuring consistent electrical supply for professional applications.

Engine Specifications

Rated Power Output

5.5 HP

Horsepower

4.1 kw

Kilowatts

Engine Model	OY168
Displacement	163 cc
Starting System	Recoil, Electric Start

Generator Performance

AC Power Output

Type	Output	Unit
Rated AC Output	2	KW
Max AC Output	2.3	KW

Supported Voltages

110V • 120V • 220V • 230V • 240V

Operating Efficiency

Fuel Tank Capacity	15 L
Continuous Operation Time	13 H
Noise Level	67 dB

Physical Dimensions

Dimensions (LxWxH)	610x445x445 mm
Dry Weight	37 kg
