

Portable Gasoline Generator with 2.0 HP Engine

This is a compact and lightweight gasoline generator designed for portable power solutions. It features a 2.0 HP engine, providing reliable power for various applications.

Overview

Compact Portable Power

This portable gasoline generator features a reliable 2.0 HP engine, engineered for versatile power solutions in various environments. Designed with both AC and DC output capabilities, it provides the flexibility needed to power a wide range of devices. Its durable construction and compact, lightweight form factor make it an excellent choice for camping, outdoor activities, and reliable emergency backup power.

Technical Specifications

Output Options

- AC Output
- DC 12V Output

Engine Power

2 HP

Monitoring Features

Integrated Voltmeter

Key Features

Key Performance Indicators

2 HP

Engine Power

12 V

DC Output Voltage

Ideal Applications

Camping • Outdoor Activities • Emergency Backup
