

Portable Gasoline Generator with 220V Output

This gasoline generator is a portable power solution suitable for various applications. It features a robust engine with an ON/OFF switch, a 220V AC output, a DC output option, a voltmeter, and a durable frame.

Overview

Portable Power Solution

This portable gasoline generator is engineered to provide reliable power for a wide range of applications. Featuring a robust engine and a durable protective frame, it is designed for both performance and easy transport. The unit includes essential safety features such as a circuit protector and offers versatile output options to accommodate various electrical appliances.

Technical Specifications

AC Output Voltage	220 V
Model Identifier	KA150

Features & Safety

Available Outputs

- AC 220V Output
- DC Output

Safety & Control	Circuit Protector, Voltmeter, Engine Switch
