

Portable Gasoline Generator with AVR

This is a portable gasoline generator. It features AC230V outlets and an automatic voltage regulator (AVR).

Product Overview

Reliable Portable Power

This portable gasoline generator is engineered for dependable performance in diverse environments. Equipped with an integrated Automatic Voltage Regulator (AVR), it ensures stable power output suitable for sensitive equipment. Its robust frame design enhances durability, making it an ideal solution for construction sites, outdoor events, or emergency backup power.

Technical Specifications

Control Interface

- Engine Switch
- AC230V Outlets
