

Portable Gasoline Generator with Recoil Start

This portable generator provides electrical power in remote locations or during power outages. Its compact design includes a carrying handle, recoil start, AC output, overload protection, and low oil shutdown.

Overview

Compact Power Solution

This portable gasoline generator is engineered to provide reliable electrical power in remote locations or during unexpected power outages. Featuring a compact, ergonomic design with a convenient carrying handle, it is built for easy transportation and versatility. It is an ideal solution for camping trips, construction sites, and emergency backup power needs.

Technical Specifications

Starting System	Recoil Start
Output Type	AC Output
