

Portable Gasoline Power Generator

This portable gasoline generator provides electrical power. It features a durable frame, air-cooled engine, and an accessible electrical panel.

Product Overview

Reliable Portable Power Solution

This portable gasoline generator is engineered to provide dependable electrical power for a variety of demanding environments. Featuring a robust, protective frame for enhanced durability and portability, it is an ideal choice for construction sites, emergency backup power, and outdoor operations. The unit is equipped with an efficient air-cooled engine and a user-friendly electrical panel, ensuring consistent performance when and where you need it most.

Key Performance Metrics

Maximum Output

6000 W

Max Output

Technical Specifications

Cooling System	Air-cooled
Fuel Type	Gasoline

Features

Design Features	Portable, Robust Frame, Air-Cooled Engine, Electrical Panel
-----------------	---

Applications

Best For

- Construction Sites
- Backup Power Supply
- Outdoor Activities
