

Portable Gasoline Water Pump 2.5 HP

This portable gasoline water pump is designed for efficient water transfer. Powered by a robust 2.5 HP engine, it delivers reliable performance for irrigation, drainage, and general water pumping needs.

Overview

Portable Gasoline Water Pump

This portable gasoline water pump is engineered for efficient water transfer across agricultural, construction, and domestic applications. Powered by a reliable 2.5 HP engine, it combines robust performance with a lightweight, durable design for easy transport and operation. It features user-friendly controls and standard hose connections, making it an ideal solution for irrigation and drainage needs.

Technical Specifications

Key Features

- Portable and lightweight design
- Standard inlet and outlet connections
- User-friendly controls
- Durable construction

Engine Power	2.5 HP
Suitable Applications	Agricultural, Construction, Domestic
