

# Portable Gasoline Water Pump

This portable gasoline water pump is designed for efficient water transfer in various applications. It features a robust engine for reliable performance and a durable pump housing for long-lasting use.

## Product Overview

### High-Efficiency Portable Water Transfer

This portable gasoline-powered water pump is engineered for high-performance water transfer across diverse environments. Designed with a robust engine and durable housing, it ensures consistent operation for irrigation, construction sites, and emergency flood mitigation. Its self-priming mechanism allows for quick startup, while the lightweight frame maximizes mobility for professional field use.

## Technical Specifications

Model Identifier	WP20X
Engine Type	Gasoline
Priming Method	Self-priming

## Features

Primary Advantages	Portable, Lightweight, Durable Housing, Easy Operation
--------------------	--

## Applications

### Common Industry Uses

- Agricultural Irrigation
- Construction Site Dewatering
- Emergency Water Removal
