Product Overview

Portable Gasoline Water Transfer Pump

This portable gasoline-powered water pump is engineered for efficient water transfer across various agricultural and domestic applications. Featuring a robust engine and durable pump housing, it offers reliable performance for irrigation, drainage, and general water movement tasks. Its compact design, mounted within a sturdy protective frame, ensures excellent portability and stability in remote locations.

Performance & Application

Water Compatibility

Clean Water

Primary Applications

Irrigation, Drainage, General Water Transfer, Agricultural Use, Domestic Use

Design & Construction

Portability & Design

- Compact design for easy transport
- Sturdy protective frame for stability
- Durable pump housing
- Standard inlet and outlet connections

Technical Specifications

Power Source

Gasoline Engine

Maintenance

Engineered for ease of maintenance
