

Portable GPS Navigation Device with Touchscreen

This portable GPS device is designed for in-vehicle navigation. It features a color touchscreen display, turn-by-turn voice navigation, and pre-loaded maps.

Overview

Professional Navigation Solution

This portable GPS navigation device is engineered for reliable in-vehicle route guidance. It features a high-clarity color touchscreen interface that supports intuitive route planning, point-of-interest searching, and real-time traffic updates. Beyond navigation, the unit offers versatile multimedia playback capabilities for music and video, making it a comprehensive travel companion.
