

Portable Handheld Steam Cleaner

This portable handheld steam cleaner uses pressurized steam to remove dirt and grime from surfaces. Its high-temperature steam output sanitizes surfaces in kitchens, bathrooms, and on furniture.

Product Overview

Versatile Steam Cleaning Solution

The Portable Handheld Steam Cleaner is a professional-grade, versatile cleaning device designed for multi-surface sanitization. Utilizing high-temperature, pressurized steam, it effectively removes grease, dirt, and grime without the use of harsh chemical reagents. Its compact, ergonomic design and long power cord ensure ease of use across kitchens, bathrooms, and upholstery while maintaining a focus on eco-friendly, water-only sanitation.

Performance Specifications

Power Consumption

1050 W

Max Power
