Product Overview

Professional Portable Cleaning Solution

This portable handheld vacuum cleaner is engineered for efficient cleaning in tight spaces, such as vehicles or small work areas. Featuring a powerful suction motor integrated with a convenient floodlight, it ensures visibility and performance even in dimly lit environments. The modular design includes multiple attachments like a flexible hose, brush, and crevice tool to handle various debris with ease.

Key Features

Integrated Features

Strong Suction, Built-in Floodlight, Portable Design, Modular Attachments
