Overview

Portable Power Solution

The RIG2000 is a compact, gasoline-powered inverter generator engineered for stability and portability. Utilizing advanced inverter technology, it delivers a pure sine wave output, making it safe for sensitive electronic devices. With its lightweight design and quiet operation, it is an ideal power source for remote locations, outdoor events, or emergency backup needs.

Technical Specifications

Engine Type	4-stroke gasoline
Running Noise	70 dB
Weight	23 kg
Runtime per Tank	3.3 hours
Output Type	Pure sine wave

Features

Key Features

- Inverter technology for stable power
- Ultra-quiet acoustically insulated casing
- Digital throttle for noise reduction
- Parallel capability to double power capacity
- Direct-connected alternator for weight reduction

Certification & Compliance

Certifications	EPA, CE, CARB, CETL, PSE
