

Portable Kerosene Generator

This portable generator is designed to provide power using kerosene fuel. It is available in 1.5kW, 2.0kW, and 2.5kW power output options.

Overview

Reliable Power Anywhere

This portable kerosene generator is engineered to provide a dependable power supply for diverse environments, from residential backup during outages to demanding construction sites and outdoor activities. Available in three power output configurations, it features a robust, durable frame designed to withstand rigorous use. With an easy-start mechanism and multiple integrated power outlets, it offers a user-friendly solution for those needing consistent energy on the go.
