Product Overview

Portable UV-C Sterilization

This portable disinfection lamp utilizes advanced UV-C LED technology to effectively eliminate germs and bacteria from various surfaces. Designed for maximum convenience, its compact and lightweight form factor makes it an ideal tool for sanitizing small objects on the go. Featuring a rechargeable battery and intuitive controls, it offers a reliable and chemical-free solution for maintaining hygiene in your daily environment.

Technical Specifications

UVC Wavelength	272.5 nm
Output Rated Power	3 W
Input Voltage	5.00V \pm 0.25V
Max Charging Current	1 A
Standby Current	d 20%

Battery & Charging

Core Capacity	400 mAh
Charging Time	About 1 hour

Physical Attributes

Dimensions	12.5cm x 3.0cm x 1.5cm
Material	PVC Plastic

Operating Environment

Working Temperature	-25°C ~ 85°C
---------------------	--------------

Features

Key Features

Portable, Rechargeable, UV-C LED, Automatic Shut-off, Lightweight
