

# Portable LED Solar Lantern with Separate Charging Panel

This product is a portable LED lantern powered by solar energy. It includes a separate solar panel for charging the lantern's internal battery.

## Product Overview

### Sustainable Portable Lighting

This portable LED lantern provides a reliable and eco-friendly lighting solution for a variety of outdoor and emergency needs. Featuring a dedicated separate solar charging panel, it ensures efficient energy conversion to power the internal battery throughout the day. Its robust design includes a convenient carrying handle and simple controls, making it an ideal choice for camping trips, power outages, and remote field work.

## Technical Specifications

Light Source	High-Efficiency LED
Energy Supply	Solar Energy
Charging Method	External Solar Panel

## Design Features

Key Features	Portable, Solar Powered, External Panel, Carrying Handle, Battery Operated
--------------	--

## Usage

### Recommended Applications

- Camping and outdoor activities
- Emergency lighting during power outages
- Remote field operations
- Backyard and garden lighting
