Product Overview

High-Performance Portable Illumination

This portable LED work light is engineered for demanding professional environments, offering 7500 lumens of high-intensity illumination. Constructed with a durable aluminum body, it features an IP66 rating for superior water and dust resistance, making it ideal for construction sites and outdoor workshops. The integrated stand and handle design ensure maximum portability and flexible positioning for any task.

Performance Metrics

Power Output

50 W Power	7500 Lm Brightness	150 lm/W Luminous Efficiency
----------------------	------------------------------	--

Color Temperature	5500-6000K
