Product Overview

High-Efficiency Portable Cleaning

This portable high-pressure cleaner utilizes a powerful pump system to generate high-pressure water, providing a scientific and environmentally friendly solution for removing stubborn dirt. Designed for versatility, it is an ideal cleaning tool for both individuals and small maintenance units, perfect for washing cars, motorcycles, and maintaining various outdoor surfaces. Its cordless lithium battery design ensures mobility, allowing for effective cleaning of building exteriors, floors, and hard-to-reach areas like corners and oil stains.
