

Portable LPG Space Heater

This portable gas heater is designed for efficient space heating in areas up to 60 square meters. It features three adjustable power levels and multiple safety mechanisms, including flameout protection and an anti-tilt device.

Product Overview

Efficient Portable Heating

This portable LPG space heater is designed to provide reliable warmth for indoor environments ranging from 25 to 60 square meters. It features three adjustable power levels, allowing users to customize heat output between 1.4kW and 4.2kW based on their specific needs. Built with safety in mind, the unit includes advanced protection systems such as flameout protection, an oxygen depletion sensor (ODS), and an anti-tilt device.

Technical Specifications

Power Output Range

1.4 kW

Min Power

4.2 kW

Max Power

Adjustable Power Levels	3
Fuel Type	LPG
Max LPG Cylinder Capacity	10 kg

Performance

Suitable Heating Area	25-60 square meters
-----------------------	---------------------

Safety Features

Integrated Safety Systems	Flameout Protection (TCS), Oxygen Depletion Sensor (ODS), Anti-tilt Device
