

Portable Magnetic Drill Press

This portable magnetic drill press is designed for drilling holes in steel and other ferrous materials. It features a strong magnetic base and a coolant system for efficient drilling in construction, fabrication, and industrial applications.

Overview

High-Performance Magnetic Drilling

This portable magnetic drill press is engineered for heavy-duty drilling applications in steel and ferrous materials. Featuring a robust 1850W motor and a powerful 18000N magnetic base, it ensures secure and precise operation in demanding industrial environments. With its reversible rotation and versatile drilling and tapping capabilities, this tool is an essential asset for construction and metal fabrication projects.

Power & Performance

Motor Specifications

1850 W

Power Output

18000 N

Magnetic Adhesion

Voltage Compatibility

230V / 50Hz, 120V / 60Hz

Drilling Capacity

Drilling Capacities

Operation	Capacity
Hole Cutting	100mm dia. x 50mm deep
Twist Drilling	2.5 – 16mm dia.
Tapping	M30

Technical Details

Operational Specifications

- No Load RPM: 260 / 460 rpm
- Stroke: 210mm
- Tool Holder: 19.05mm (3/4") and 32mm (1-1/4")

Key Features

Reversible Rotation • Portable Design • Magnetic Base

Net Weight

21 kg
