

Portable Magnetic Drill Press

This portable magnetic drill press is designed for drilling holes in steel. It features a powerful motor and a strong magnetic base for secure attachment to metal surfaces.

Overview

Portable Magnetic Drill Press

This portable magnetic drill press is engineered for precision drilling in steel and metal fabrication environments. Featuring a powerful 1200W motor and a robust magnetic base, it provides secure attachment to metal surfaces for stable operation. Its compact design makes it an ideal tool for construction, shipbuilding, and industrial maintenance tasks where portability and reliability are essential.

Technical Specifications

Power & Performance

1200 W Motor Power	13000 N Magnetic Adhesion
------------------------------	-------------------------------------

No Load RPM

- 260
- 560

Voltage Compatibility	230V / 50Hz, 120V / 60Hz
------------------------------	--------------------------

Stroke	190 mm
---------------	--------

Tool Holder Size	19.05mm (3/4")
-------------------------	----------------

Drilling Capabilities

Drilling Capacity

Operation	Capacity
Hole Cutting	45mm dia. x 50mm deep
Twist Drilling	2.5 – 16mm dia.

Physical Attributes

Net Weight	13.5 kg
-------------------	---------
