

Portable Magnetic Drill Press

This portable magnetic drill press is designed for drilling large holes in thick steel. It features a strong magnetic base for secure attachment to metal surfaces and a coolant system for efficient drilling.

Overview

High-Performance Portable Magnetic Drill

This compact and powerful magnetic drill press is engineered for precision drilling in demanding metalworking applications. Featuring a robust 1100W motor and a strong 13000N magnetic adhesion force, it ensures secure and accurate drilling on steel surfaces. Its lightweight design and portable structure make it an ideal choice for on-site fabrication, construction, and industrial maintenance tasks.

Performance Metrics

Maximum Power

1100 W
Max Power

Magnetic Adhesion Force	13000 N
No-Load Speed	550 RPM

Drilling Capabilities

Cutter Capacity	∅12 - ∅32mm
Cutter Depth	35 mm
Stroke	45 mm

Physical Specifications

Net Weight	10.2 kg
Unit Height	245 mm
Magnetic Base Size	160 x 80 x 50 mm
Spindle Holder Size	19 mm

Electrical & Packaging

Packaging Iron Box	
Supported Voltage	230V/50Hz, 120V/60Hz
Gross Weight	17 kg
Package Dimensions	42 x 26 x 36 cm
