Product Overview

Efficient Portable Heating

This portable oil-filled radiator heater is designed to provide consistent and efficient warmth for indoor spaces. Featuring adjustable thermostat controls and three distinct heating settings, it allows users to customize their comfort level while optimizing energy usage. Built with safety in mind, it includes triple overheat protection and pressure-tested components, making it a reliable solution for supplemental room heating.

Technical Specifications

Power Output

1500 W

Minimum Power

2500 W

Maximum Power

Voltage	220-240V
Frequency	50/60Hz
Fin Configuration	7 to 11 Fins

Features & Safety

Convenience Features

- Adjustable thermostat control
- Smooth castors for mobility
- Integrated cord storage
- Easy to clean design

Heating Settings	3 modes
Safety Systems	Triple Overheat Protection, Pressure Tested, Indicator Lights
