Overview

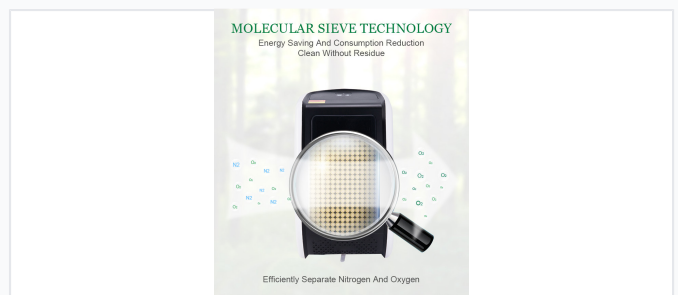

Portable Oxygen Solution

This portable oxygen concentrator is designed for both travel and home use, offering a flexible 2L high-flow oxygen supply. It features a pulse oxygen delivery system with 5 adjustable gears to meet varying user needs, alongside a convenient split structure for easy installation. With safety features like current overload and temperature protection, plus an SOS function, it provides a reliable and user-friendly experience for on-the-go or at-home oxygen therapy.

Performance

User-friendly digital display showing real-time oxygen concentration, flow rate, and pulse settings.

Advanced molecular sieve technology ensures efficient nitrogen and oxygen separation for clean, consistent oxygen output.

Oxygen Concentration

93 % At 2L/min	38 % At 6L/min
--------------------------	--------------------------

Flow Rate Range	6 L/min
Output Pressure	0.03 - 0.07 Mpa
Noise Level	42 dB(A)

Technical Specifications

Rated Power	d111W (DC 12V)
Packing Size	415 x 396 x 235 mm

Features

The device includes a convenient backpack for easy transport and supports both vehicle and home use.

Versatile design suitable for various users including the elderly, travelers, and drivers.

Key Features

- Pulse oxygen supply with 5 adjustable gears
- Split structure for convenient installation
- One-touch SOS button
- Includes backpack for portability
- Optional rental/scanning payment function
- Molecular sieve technology

Usage Compatibility

Vehicle Use • Home Use • Travel Ready

Safety & Protection

Current Overload Protection, Compressor High-Temperature Protection, Automatic Shutdown
