

## Technical Specifications

Compact design allows for vertical, flat, or wall-mounted placement.

Model	BM-XDJ-01
Dimensions	6.9cm diameter x 2.1cm thickness
Battery Capacity	500 MAH
Battery Life	Approx. 7 days per charge
Charging Method	USB
Shell Material	ABS

## Performance Metrics

Effective against formaldehyde, PM2.5, odors, and common bacteria in vehicles.

### Sterilization Rate

**99.92 %**

Sterilization Rate

Ozone Atom Output	2000 $\mu\text{g/h}$
Effective Coverage	$< 2 \text{ m}^3$

## Features

Instructions for the use of oxygen atom decomposition and sterilizer for mini sterilizer

There are two working modes of sterilizer for air purifier:  
1. Energy saving mode: press the switch light, turn on the "green" indicator and start working for 30 minutes, then work every 50 minutes in interval of 5 minutes.  
2. Efficient mode: press the switch, turn on the "blue light" indicator and start working for 30 minutes, then every 20 minutes, work for 30 minutes.

Simple interface with two working modes indicated by color-coded lights.

### Operating Modes

Mode	Indicator	Description
Energy Saving	Green Light	30 min work, then 5 min per 55 min
Efficient	Blue Light	30 min work, then 30 min per 20 min

### Core Technologies

Ozone Sterilization, Negative Ion Release, Active Oxygen Decomposition
