Product Overview

Compact Ozone Air Purification

This portable ozone air purifier is designed to efficiently eliminate odors, bacteria, and pollutants in small enclosed spaces. Featuring a lightweight, one-button operation design, it is an ideal solution for maintaining air quality in homes, offices, vehicles, and storage areas like wardrobes or refrigerators. The device is USB rechargeable and operates silently, providing a fresh and clean environment with ease.

Technical Specifications

Ozone Output	5 mg/h
Power Consumption	0.5 W
Input Voltage	3.7V/DC

Battery & Power

Lithium Battery Capacity	2100 mAh
