

Portable Ozone Generator for Air and Water Purification

This portable ozone generator is designed for both air and water purification. Its compact design includes a handle for easy portability.

Product Overview

Versatile Ozone Purification

This portable ozone generator is a compact and efficient solution designed for both air and water purification. Utilizing advanced electrical discharge technology, it produces ozone as a powerful oxidizing agent to effectively eliminate odors and neutralize bacteria. Its portable design, complete with a convenient handle, makes it an ideal choice for maintaining hygiene in homes, offices, and various small spaces.
